

Faculty Position in Biophysics-Assistant Professor

The T.C. Jenkins Department of Biophysics, Johns Hopkins University, Baltimore, Maryland (<https://biophysics.jhu.edu/>) is inviting applications for a tenure-track Assistant Professor in the broad area of Molecular and Cellular Biophysics. We encourage applicants who are using experimental, theoretical, or computational approaches to understand the physical chemistry, structure, function, and assembly of biomolecules. We seek faculty colleagues who have an established interest in promoting equity and inclusion among diverse scientists.

Our search is structured to minimize bias and provide equal opportunity to all applicants. Please submit your application files including a CV, statement of current and future research, statement of teaching interests and philosophy, and diversity statement, and arrange to have three confidential letters of recommendation submitted through <http://apply.interfolio.com/113389>. A complete description of how to prepare the application documents and additional information on our search can be found on our website ([Jenkins Faculty Search](#)).

Review of submitted applications will begin September 26, 2022 and will continue until the position is filled. Priority consideration will be given to applications that are complete by October 20, 2022. The anticipated starting date of the appointment is July 1, 2023.

Johns Hopkins University is committed to active recruitment of a diverse faculty and student body. The University is an Affirmative Action/Equal Opportunity Employer of women, minorities, protected veterans and individuals with disabilities and encourages applications from these and other protected group members. Consistent with the University's goals of achieving excellence in all areas, we will assess the comprehensive qualifications of each applicant.
